

AF-01 LIGHTWEIGHT AVIATION HEADSET

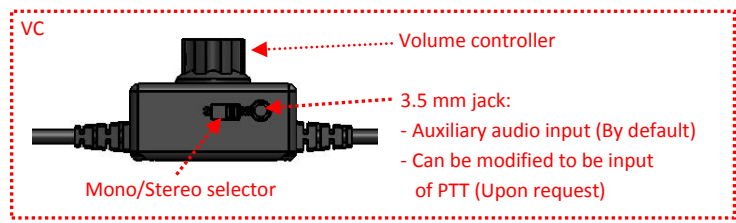

Features:

- Comfortable and Secure Fit with a Lightweight and Durable Headband
- Superb microphone quality
- Insert earphones with Comply™ eartips provide good sealing
- Volume Controller (VC) comes with stereo Selector and Auxiliary Audio Input (Can be modified to be input of PTT upon request).

The AF-01 Aviation Headset is both lightweight and comfortable. It is an Ear-insert type Headset. The insert earphones with Comply™ eartips seal to the inside of the ear canal, they provide good sealing, no ANR is required, and the headset is fully passive.

The Boom Microphone provides advanced clarity and noise cancelling performances.
